

'The Human Errors Factor....Pilot Excuses!'

Human factors affect everything we do in our daily lives. Pilots by the very complex nature of flying have numerous chores and tasks to perform in the safe operation of the aircraft. So when does the 'human element' clash with a pilot's flying? Why do pilots find excuses for their poor decision making or flying skills? This NEW presentation will look at some of the more common situations pilots encounter, and their peculiar responses to them. In addition, recommendations will be presented in an effort to raise pilot's awareness to these situations, and preventive measures which might be taken in avoiding them.

Directions: Venue can be accessed via Belt Parkway, Nassau Expressway and local streets. Use main entrance to airport by hotels and proceed to Exit B (second right). Turn left off exit and right into Port Authority parking lot. Use center building entrance, then sign in at security.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
